

# CsHm Measurement COUNTS

15<sup>TH</sup> Annual Canadian School  
of Hydrocarbon Measurement

MARCH 21 & 22, 2017

Calgary Telus Convention Centre

CSHM.ca

## Measurement Matters!

Are you prepared for upcoming climate change & emissions regulations? **Hear directly from regulators** and industry experts on how to meet the challenge.

### 67 sessions to choose from, including:

- Reducing methane emissions and carbon tax for your company
- Climate change legislation – are you prepared?
- Impacts of upcoming AER methane reduction regulations, an industry advanced preparedness session.
- Leak detection analysis – effective tools, strategies & systems that won't break the bank.
- Update on SK directive PNG017, measurement inspections and EPAP.

Over 50 exhibitors and hands on displays.

All this and more! Delivering value for your training dollar.
