P2's Lean on P2 Production & Revenue Accounting Training Initiative

P2 Energy Solutions wants to **help the future of our industry** by expanding the reach of their **Lean on P2 Campaign** to include free Qbyte Metrix training for out of work oil and gas industry professionals. This opportunity to further skill sets by registering for complimentary courses on P2's industry leading Qbyte product suite will enable individuals affected by the economic downturn to enhance their skills and gain confidence in themselves during troubled times. Hard work, perseverance and the ability to capitalize on opportunities is at your fingertips. If you want to invest in yourself we can help! **Contact us @ smacdonald@p2energysolutions.com** for further information.

Qbyte Production Accounting products are used by more than 840 Production and Revenue Professionals at 77 E&P companies.

Introduction to Metrix Property Configuration, Monthly Processes with Optix for Metrix

Wednesday, May 4th – 8:30 AM – 12:00 Noon

Instructed by Sara-Jo Nesbitt

This class is designed for users who are new to the Qbyte Metrix Production Accounting System and the Optix Reporting Tool. The course will introduce users to Navigating and Key Terms within Metrix. We will take the user through a Property Configuration, the Monthly Process from Monthly Data Input, Processing, Reporting and Government Filing. This class will show students how to use the Optix reporting tool to report on data out of the Qbyte Metrix Production Accounting System. Hands on exercises are provided.

Introduction to Metrix Property Configuration, Monthly Processes with Optix for Metrix

Wednesday, May 18th – 8:30 AM – 12:00 Noon
