# **ANNOUNCEMENTS**

# **Office Closures – Christmas Period**

All Alberta Energy offices will be closed from Monday, December 25, 2017 to Monday, January 1, 2018, inclusive. The submission deadline for the December 2017 invoice is December 15, 2017. However, due to the time constraints caused by the closure please have all form submissions and requests to Gas Royalty Operations by <u>Monday, December 11, 2017</u> to ensure sufficient time for processing for the invoice. Offices will re-open on Tuesday, January 2, 2018.

# October 2017 Sulphur VA4 Reporting

Due to the upcoming holidays, we would like to request your help in sending in your Sulphur report submissions earlier, before the deadline date.

Sulphur VA4 report deadline for October 2017 production is on Friday, December 15th. Due to the proximity to the holidays, early submissions would be very much appreciated in order to facilitate timely completion of the processing and systems requirements. If you have any questions, please contact Arlene Astorga, Pricing & Analysis at 403-297-5459, or <u>arlene.astorga@gov.ab.ca</u>.

# Statutory Requirement and Recalculation of 2013 Royalty

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis. Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:

1. On the department's initiative in conjunction with an audit or examination; or

2. At the request of a royalty payer.

### **Audits in Progress**

Non-operator partners are advised that certain 2013 Allowable Operating and Capital Costs (including costs reported at facilities where fractionation occurs), Custom Processing Fees, Custom Processing Adjustment Factor (CPAF), Enhanced Oil Recovery Schemes, CO2 Project Credit claims and volumetric reporting discrepancy audits are currently in progress.

It is anticipated that these audits will be completed before December 31, 2017. However, should circumstances warrant a completion of these audits in 2018, we no longer provide a list of the facilities affected by the outstanding custom processing adjustment factor review and the AC2 review. Please note that all facilities and all facility cost centres are open for a potential review.

Royalty clients are also reminded that amendments received by the department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the department to commence a review of the amendments prior to the end of the year, the department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Robert Sonego, Manager, Compliance & Assurance, Calgary, at 403-297-8774.

# Industry Recalculation of 2013 Royalty

Industry initiated royalty recalculation requests for the 2013 production year must be submitted in writing to the attention of Olga Marocco, Manager, Volumetric & Cost Reporting, Gas Royalty Operations on or before December 31, 2017 and must include the information listed below.

- Identification of the recalculation facility or facilities
- A list of the royalty variables proposed for recalculation
- The reason for the recalculation
- The production year of the recalculation
- An order of magnitude estimate (i.e. >\$100,000, >\$1 Million, >\$2 Million, etc.,) of the recalculation requested
- Identification of all royalty clients that may be impacted by the request (this is necessary, especially in situations where volumes may be cascaded to another client who is expected to respond to the cascade)
- Confirmation from the operator that the affected partner(s) have been notified
- A sample copy of the submission pertaining to a particular production month in paper or electronic format (e.g., excel)

If the request meets the department's terms and conditions for recalculation, it will be approved. A request made during the fourth year following the production year, must be completed before the end of the fifth year, with a reasonable time for a review by the department, prior to the end of the fifth year.

Due to office closure during December 25, 2017 to January 1, 2018 inclusive, any inquiries concerning the extension of the fifth year for amendment submission will only be addressed on or before **December 22, 2017.** Submissions will be accepted up to and including **December 31, 2017**, but should there be any deficiencies, the request will be denied.

If you have any questions regarding this process, please contact the Volumetric & Cost Reporting team.

# MONTHLY INFORMATION

# Re-Allocation of Assigned Volumes (RMF2s)

As per the <u>Alberta Natural Gas Royalty Guidelines (2009, Updated)</u>, Chapter III, Section 2.2.1, Royalty clients may submit an RMF2 form if they wish to reassign all or part of their Crown and/or freehold volumes of gas and gas products allocated to well events, well groups, units, or injection schemes. The RMF2 Listing report identifies the royalty clients' active RMF2s currently in our system as well as the date that the form was last used to re-assign volumes.

Royalty Clients should review their RMF2 reports issued each month, and are requested to submit termination dates for those RMF2s that are no longer required. The number of unused documents continues to increase. Part 3.4 of the RMF2 form requires a Termination Date be completed and it should be defined for a reasonable timeframe. The RMF2 is not intended for the facilitation of sales activity between clients. In those instances, the OAF can be changed in

order to facilitate a smooth transition of responsibility for the production volumes. As a reminder, the department will require definite termination dates applied to each form (Part 3.4). If the termination date is not on the form, it will be returned to the submitter. The Department expects that this will reduce the number of obsolete documents in our system.

If you require any additional information, please contact VCR at VCR@gov.ab.ca.

# **Pricing for Gas and Gas Products**

For pricing on gas, gas products, and transportation information for September 2017, please refer to the <u>Information Letter</u>.

The monthly default sulphur price for **September** is **\$39.23**. Below are the annual sulphur default prices:

2013	2014	2015	2016
\$51.05	\$82.35	\$101.10	\$43.13

# September 2017 Royalty Due December 31, 2017

Royalty clients are to remit the total amount payable shown on the December 2017 Statement of Account by December 31, 2017. If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided. Current period interest will not be charged on current invoice charges for the production month of September if it is paid in full by December 31, 2017.

The December 2017 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your September 2017 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.

Note: If the due date falls on a non-business day, the next business day will apply as the due date *except for the month of March due to the Government of Alberta's fiscal year end.* In this situation, the due date will apply previous to the non-business day as the due date.

Cheques are made payable to the Government of Alberta and must contain the G94 account number as reflected on the Statement of Account.

# October 2017 VA4 due December 15, 2017

The VA4 forms for the production month of October 2017 are due in the department offices by December 15, 2017.

Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.

## Petrinex Deadline Submissions

The Petrinex deadline for SAF, OAF, and Volumetric submissions are posted on the Petrinex website "<u>Reporting Calendars</u>" under Calendars. *Changes to this calendar will be posted on the <u>Petrinex website home page</u> in "Broadcast Messages."* 

### Interest Rate November 2017

Alberta Energy's interest rate for November 2017 is 4.20%

### August Provisional Assessment Charge

The summary of Provisional Assessment Charges for all production periods in the August 2017 billing period was:

First Time Provisional	Reversals of Provisional	Net Provisional
Assessment	Assessments (Net)	Assessment
\$868,542.42	(\$208,440.04)	

### August Penalty Charges

The penalty table below shows at the form level, the total penalty charges and reversals, for the August 2017 billing period.

Forms	Penalty Charges	Penalty Reversals	Net Penalty Charges for 2017/07
AC2	\$179,800	(\$10,800)	\$169,000
AC5	\$500	\$0	\$500
NGL*	\$0	\$0	\$0
VA3	\$0	\$0	\$0
VA4	\$0	\$0	\$0
Total	\$180,300	(\$10,800)	\$169,500

\* NGL Price Reporting

### Production Allocation Discrepancy (PAD) Potential Royalty Impact

As of the August 2017 billing period, the potential royalty dollar impact is estimated as \$5.6 million, for the production months of March through August 2017.

NOTE: These values are not intended to show that Crown royalty has been understated but do illustrate the consequences of incorrect reporting.

# Well Event Measured Depth Determination Letter

The department has issued a "Well Event Measured Depth Determination Letter" under the Report Package DOE – Gas to facility operators via Petrinex on November 1, 2017 and November 16, 2017. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the Alberta Royalty Framework formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through Petrinex to a well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

# **NGDDP Confidential Wells**

Wells designated as "confidential" will be reviewed prior to the removal of the "confidential" status, if the directional surveys and completion reports are provided to the department. Send directional surveys and completion reports to <u>GasRoyaltyPrograms@gov.ab.ca</u>

If you have any questions, please contact Lily Hiew in Gas Royalty Features at 780-427-1550.

# **INFRASTRUCTURE DATA**

# **Business Associate ID Listing**

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, and includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petrinex website.

The Department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry/Crown Land Data at 780-422-1395 or <u>CrownLandDataSupport@gov.ab.ca</u> if you have any questions regarding the information supplied in this article.

# **Client Status Changes**

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client status changes, names, or IDs please contact Client Registry/Crown Land Data at 780-422-1395 or <u>CrownLandDataSupport@gov.ab.ca</u>.

### Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under <u>Facility Royalty Trigger Factors and Meter Station Ties</u>.

### **REMINDERS**

### Natural Gas Liquids Buyer Identification

The Natural Gas Liquids (NGL) Reference Prices represent the field-based provincial reference prices, which are calculated using information submitted by all NGL buyers. As with every program, we strive to maintain our database to ensure inputs to the calculation are kept as current as possible. In this regard, we are seeking your assistance with identifying NGL buyers that purchase product at Alberta field locations. Please review the attached list of NGL buyers (Appendix A) that are already known to us and send us an email with the names and contacts of NGL buyers that are not on the list.

We would like to contact the new companies as soon as possible to enable them to prepare for the reporting requirements.

#### **Contacts**

For further information or to submit names and contacts of NGL buyers, please contact:

# **Department Initiated Amendments for 2013 Royalty**

The following is under review by the department for the production year 2013 and will be completed in 2018:

Accuracy of royalty related volumetric submissions, including but not limited to:

- PURDISP/PURREC reporting and ABWG 99999 allocations.
- Accuracy of royalty related gas cost allowance submissions.

If you have any questions regarding this process, please contact the Control Assurance team at <u>ControlAssurance.Energy@gov.ab.ca</u>.
