**INFORMATION LETTER 2018-09**

**Subject: Natural Gas Royalty Prices  
January 2018 Production Month**

---

This Information Letter provides the various prices necessary to calculate the royalty quantity and value for gas, ethane, and gas products for year 2018 in accordance with Natural Gas Royalty Regulation, 2009 A.R. 221/2008 and 2017 A.R. 211/2016. The Minister of Energy has prescribed the values for the January 2018 production month, as set out in Attachments 1, 1A, 2, Schedules A and B. Schedule A is the annual regularly scheduled calculation of all meter station factors, which includes revised meter station factors in effect prior to the production period January 2018. Meter station factors identified in this attachment are effective the January 2018 production period and subsequent production periods until otherwise changed. Schedule B identifies meter station factors for new receipt meter stations for the period February to December 2017. Meter station factors are used to determine facility specific transportation adjustments to the Facility Reference Price.
