### **Letter from CAPPA BOD**

CAPPA is pleased to announce as of July 1<sup>st</sup>, 2021, we are going live with our very own online learning management system, the CAPPA Learning Center, also known as “CLC”. The CAPPA Learning Center will be available to all CAPPA members looking to either complete their CAPPA certification, further their education by attending one of our seminars/lunch and Learn sessions or simply refresh their CAPPA knowledge on specific areas of interest all at a member discounted rate.

The desire for CAPPA to implement their own learning management system was initiated last year and announced at our 2020 Annual AGM. During these unprecedented times, CAPPA knew there was no better time than now to move forward and create their own CAPPA Learning Center to allow our members the opportunity to study at their own pace and complete their CAPPA certificate on their own timeline. The CAPPA Learning Center also allows members to focus in on specific areas of interest depending on the direction of their careers, all at their own pace. Each module is offered as a standalone module rather than a bundle providing members much more flexibility. This new learning platform stems from the Petrinex learning management system platform and allows our members to have easy, quick, step-by-step instructions to hands on learning in our CAPPA Learning Center.

The CAPPA Learning Center – CLC platform will be available to our CAPPA members as independent learning so those members who enroll are not restricted and are able to take the modules and exams, they want to take on their own accord. You can find answers to many of your questions on the CAPPA website by clicking the following, <https://cappa.org/clc-cappa-learning-center/>. Once enrolled, you will receive an introductory email from CAPPA which would include your new login credentials for the CLC platform in Petrinex and your studies would begin.

The CAPPA Learning Center will respond to member questions during business hours. CAPPA is committed to being responsive and will have full control over this new function within CAPPA. We are thoroughly looking forward to working with our members. We anticipate wonderful results from our CAPPA Learning Center and are here for our members should you have any questions or concerns.

The CAPPA Board of Directors
